MONTHLY DIGEST OF STATISTICS

No. 260

AUGUST 1967

This *Digest* has been prepared by the Central Statistical Office in collaboration with the Statistics Divisions of Government Departments.

2. The name of the department or organisation providing the statistics is shown under each table. Some of the statistics provided by departments are actually collected by other organisations such as nationalised boards and trade associations. The assistance provided by these organisations, too numerous to mention individually, is gratefully acknowledged.

3. The figures in the *Digest* are mainly totals for calendar months or monthly averages.

4. Some of the figures included in this *Digest* are provisional only and may be revised in later issues.

Definitions

5. *A Supplement of Definitions and Explanatory Notes*, published with the January issue, gives detailed definitions of all the terms and units used in the *Digest*.

6. The following general definitions should be noted in using the *Digest:*

Area covered. Except where otherwise stated, all statistics relate to the United Kingdom of Great Britain and Northern Ireland.

Units of measurement.
Ton = long ton of 2,240 lb.
Gallon = imperial gallon.

Consumption and stocks. The terms 'consumption', 'disposals' and 'stocks' are normally defined in detail in the *Supplement* to the *Digest*. Figures of consumption and stocks are seasonal and should be used with caution. The stocks figures given may often relate to only part of the total stocks in the country.

External trade. Owing to differences in coverage and timing, figures of imports and exports are not always comparable with those for production, consumption and stocks.

Symbols and conventions used

7. *Symbols.* The following symbols are used throughout:

.. not available.
— nil or less than half the final digit shown.
* average (or total) of five weeks.

8. *Change of basis.* A line drawn across a column between two consecutive figures indicates that the figures above and below the line have been compiled on different bases and are not strictly comparable. In each case a footnote explains the difference.

9. *Rounding of figures.* In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Central Statistical Office,
Great George Street, S.W.1.

(1) Figures of total working population, total in civil employment, employers and self-employed and total employees in employment, have been obtained by the method described on pages 207–214 of the May 1966 issue of the *Ministry of Labour Gazette*.

(2) The figures for June 1964 (a) and the corresponding figures for earlier months are not strictly comparable with those for June 1964 (b) and later months which are on the revised basis of calculation (see pages 110–112 of the March 1966 issue of the *Ministry of Labour Gazette*).

(3) Figures after June 1966 for industry groups and the totals for the index of production industries and manufacturing industries are provisional and may be revised after the count of National Insurance cards at mid-1967.

(4) Owing to re-classification at June 1964, figures for earlier years are not strictly comparable. See page 59 of the February 1965 issue of the *Ministry of Labour Gazette*.

(1) Established and unestablished staff, excluding employees of the Northern Ireland Government. In arriving at the totals two part-time workers are counted as one whole-time worker.

(2) From April 1965 the figures include Post Office grades previously classified as Industrial, and exclude Forestry Commission as a grant-aided department.

(3) Ministry of Defence and Ministry of Aviation. From April 1967 Ministry of Defence only. The functions of the Ministry of Aviation were taken over partly by the Ministry of Technology and partly by the Board of Trade on 15 February 1967.

(4) From April 1963 staff was transferred from Defence and Supply Departments to Ministry of Public Building and Works.

(5) Ministry of Pensions and National Insurance and National Assistance Board have been combined to form Ministry of Social Security from January 1967.

(1) Stoppages involving fewer than 10 workpeople or lasting less than one day have been omitted except any in which the total number of working days lost exceeded 100. The figures for 1967 are provisional.

(2) From 1960 the analysis by industries is based on the revised *Standard Industrial Classification, 1958*.

(3) Where stoppages extend over more than one month, the workers involved are counted in the month in which they first participated.

(4) The figures of working days lost relate to the total working days lost within each of the periods shown as a result of stoppages *in progress* in that period, whether the stoppages began in that period or earlier.

(1) Figures for individual months are averages of the four or five weeks ending on the last Tuesday of each month. (2) Including prescribed industrial disease. (3) Yearly figures are averages of twelve monthly figures. Monthly figures up to January 1966 relate to the third Tuesday of the month; later figures relate to the first Tuesday and are estimated by a new method following changes in the medical certification arrangements. (4) These figures include substantial numbers of persons who have been sick for a long time and who may no longer be in employment. (5) Yearly figures are averages of quarterly figures. Quarterly figures relate to first Monday in February, May and November and last Monday in July. (6) Including a diminishing number of widows with pensions of 30s. a week derived from the old Contributory Pensions Acts. About 77,000 such pensions were being paid in June 1966. (7) Before 5 August 1957 widow's pension was converted to retirement pension at age 60; since that date widow's pension continues to age 65 or date of retirement if earlier. (8) The yearly figures relate to the end of January in the following year up to 1963, and to the end of December from 1964. (9) Including the elder or eldest child for whom no allowance is payable. (10) Average for twelve months March 1966 to February 1967. *Average of five weeks.

September									

(1) Some of the allowances provide for the requirements of a household with more than one pensioner.

(2) Before March 1961, the figures for allowances in supplementation of widows' benefit relate only to widows aged under 60, older widows being included with the retirement pensioners. The figure for September 1966 includes 47,000 recipients of widows' benefit, aged over 60.

(3) Since 1 September 1966, the issue of an 'order-to-pay' at the Employment Exchange has been based on a persons' overall requirements thus eliminating the need to confirm whether or not Unemployment Benefit is in payment. It is, therefore, no longer possible to distinguish persons whose allowances supplement Unemployment Benefit and *all* persons registering as unemployed are now included with Other allowances.

(4) Pension age means 65 years for men and 60 years for women.

(5) Some of the supplementary pensions provide for the requirements of a household with more than one pensioner.

(6) Includes a small number of persons over pension age.

Flowers and nursery stock	34	34	34	34	33				
Other crops	21	18	18	18	40	44	36	35	39
Bare fallow	225	199	167	262	248				
Lucerne(5)(6)	71	63	54	47	35	88	85	68	89
Temporary grassland(7)	6,941	6,823	6,518	6,233	5,914				
For mowing(6)	3,430	3,440	3,150	2,941	2,848	4,878(8)	5,364(8)	4,646(8)	4,676(8)
For grazing	3,512	3,383	3,368	3,292	3,065				
Permanent grassland: Total	12,432	12,305	12,138	12,199	12,361				
For mowing(6)	3,116	3,232	3,078	3,018	3,017	3,668	4,219	3,822	3,880
For grazing	9,317	9,072	9,060	9,181	9,344				
Rough grazings (including common rough grazings)(9)	18,057	17,927	17,830	17,718					

(1) Excluding agricultural holdings of one acre or less in extent in Great Britain. In Northern Ireland excluding holdings of less than one acre.
(2) Gross production figures are shown for England and Wales and Northern Ireland and harvested production figures for Scotland.
(3) Weight in pod. (4) Shelled weight. (5) England and Wales only.
(6) Production figures relate to hay only. The production of hay in England and Wales is calculated from the area cut for hay and actually harvested and does not include the area mown for silage, drying or seed; the production of hay in Scotland is calculated from the area cut for hay only and does not include grass mown for silage or drying.
(7) Clover and rotation grasses. (8) Including hay from permanent grass in Scotland.
(9) Including the total area of deer forest land in Scotland.

(1) This index provides a general measure of monthly changes in total industrial production. The unadjusted index allows for variations in the length of calendar months so that it gives the average weekly rate of production in each month. The seasonally adjusted index allows for holidays and regularly recurring seasonal movements.

As some of the figures on which the index is based are available only with considerable delay, the index numbers for the last few months are always liable to be revised. Industries are grouped according to the *Standard Industrial Classification, 1958*.

(2) For an index of construction (new work only) for Great Britain, see Table 108.

(3) Provisional.

(1) Stocks held in Northern Ireland are excluded.
(2) Including shipments to Northern Ireland and the Channel Islands.
(3) Figures before 1963 included coal for foreign bunkering.
(4) From July 1963, the opencast figures include the production of certain licensed sites previously included in the deep mined figures.
* Average of five weeks.

(1) Mines operated by the National Coal Board which account for about 99 per cent. of the total output. Changes in the basis of the recorded figures have occurred from time to time making comparisons difficult. The figures given in this table have therefore been adjusted where necessary to conform throughout to the current definitions given in the *Supplement of Definitions and Explanatory Notes*.

(2) From April 1966, attendances at training and other non-operational activities are excluded.

* Average of five weeks.

(1) Excluding coke breeze.
(2) Excluding coke used for heating retorts at gas works.
(3) Including shipments to Northern Ireland.
(4) Figures relate to actual shipments made in each period and owing to the time lag between the date of shipment and the notification to H.M. Customs they differ from the figures published in the *Trade Accounts*.
* Average of five weeks.

(1) Excluding quantities used for production of steam for sale. In 1966, 263,000 tons of coal and 14,000 tons of oil were used for that purpose.

(2) Including generation by oil engine, refuse destructor, and waste heat.

(3) Including purchases from industrial producers whose generation is shown in Table 55, and net imports from France.

(4) Annual figures relate to the maximum load occurring near the end of the year or early in the following year.

(1) Excluding the fuel industries which produced:

	Million kilowatt hours
Coal mines (1965/66)	746
Gas works (1965/66)	185
Mineral oil refining (1965)	563

These industries accounted for an average weekly production of about 29 million kilowatt hours in 1965 as compared with 327 million kilowatt hours produced weekly in 1965 by the industries included in the table.

(2) Including non-ferrous metal manufacture and industries covered by Orders VI-IX of the *Standard Industrial Classification*, 1958.

*Average of five weeks.

(1) From October 1964 imported natural gas is included.
(2) Owing to reclassification, no analysis of Motor Spirit deliveries is available as yet for 1967.
(3) Provisional.

(1) Before 1963 figures for paint and varnish relate to sales by manufacturers employing more than 10 persons in 1954, but from 1963 to sales by manufacturers employing 25 or more persons at the beginning of that year.
(2) From January 1963 including clear solutions and pigmented cellulose paints.
(3) From January 1963 the figures relate to spirit-based varnishes, lacquers and stains only.

(1) Industrial ethyl alcohol made from molasses and derived from other processes.
(2) Figures include estimates computed from figures for calendar months.
(3) Figures before July 1963 relate to production by manufacturers employing 10 or more persons, but from July 1963 to production by manufacturers employing 25 or more persons.
(4) A 'short standard' is 7,200 matches.

(1) The iron content of home produced iron ore is about 27 per cent. and of imported iron ore about 59 per cent.
(2) Excluding consumption of refined and cylinder iron made otherwise than in blast furnaces.
(3) At steel works, steel foundries and blast furnaces.
(4) At steel works and steel foundries.
(5) Ingots, metal for continuously cast blooms, billets and slabs and metal for castings.
(6) Stocks at producers' works of alloy and non-alloy ingots, semi-finished and finished steel in terms of ingot equivalent.
(7) Including imports (and material for manufacture of drop forgings) but excluding deliveries of all materials for intra-industry conversion.
(8) 53 week period. *Average of five weeks.

(1) Lead reclaimed from secondary and scrap material, and lead refined from domestic ores. (2) Including lead imported for processing on toll. (3) Including production from imported scrap and residues refined on toll. (4) Including toll transactions. (5) Including the pure content of virgin alloys. (6) Excluding virgin content used in the production of secondary metal.

(1) Except for agricultural tractors, where figures up to the end of 1963 relate to numbers produced.
(2) Includes all wheeled tractors as in Table 90 and an estimated number of track-laying tractors of 10 belt horse-power and over for agricultural use.
(3) Including combined seed and fertilizer drills.
(4) Ex-works value, including items not shown separately in preceding columns, and also parts and accessories.

(1) Excluding the value of work done on research and development. Including sales to H.M. Forces from the beginning of 1964. (2) Including from January 1965 electronic control equipment from the scientific instruments and apparatus industry. (3) Including from January 1965 electronic measuring and testing equipment from the scientific instruments and apparatus industry. (4) Transmitters (sound and vision) for public broadcasting and ancillary equipment. (5) Electronic heating equipment, industrial television equipment, electronic simulators and trainers and other electronic apparatus. Including from 1963 electronic instruments for nuclear application and nucleonic instruments from the scientific instruments and apparatus industry, and from 1965 other work done on electronic capital equipment. (6) From 1965 the coverage differs slightly from earlier years.

(1) Completions are actual tonnages; other tonnages are approximate.
(2) Before 1962 only cancellations are covered. Modifications include alterations to the tonnage and the country of registration of vessels already on order.
(3) Modifications and cancellations exceed new orders for the period.

(1) Completions are actual tonnages; other tonnages are approximate.
(2) Before 1962 only cancellations are covered. Modifications include alterations to the tonnage and the country of registration of vessels already on order.
(3) Modifications and cancellations exceed new orders for the period.

June	108	90	94						

(1) Wool, hosiery (and other knitted goods), made-up clothing and the spinning, weaving and merchant converting sections of the cotton and man-made fibre industries. (2) The index numbers for individual sectors relate to the total output of manufacturers whose main business is in that sector of the industry and not output of that particular type of garment. (3) These indices have been adjusted to allow for the differences in the lengths of calendar months but not for holidays or for other seasonal variations. (4) From January 1965 the figures relate to an enlarged panel of contributors.

(1) Manufacturers' sales by establishments employing 25 or more persons. (2) Before 1967 figures relate to years ending January of the following year and to quarters ending April, July, October and January. From 1967 figures relate to calendar quarters, i.e., ending March, June, September and December. (3) Including garments made-up from knitted fabrics of all types by establishments engaged in knitting, except those engaged solely in warp knitting and, from 1966, those engaged mainly in warp knitting. (4) From the first quarter of 1967 the figures do not include shirts. (5) Excluding infants' gloves, bootees, infantees, etc. (6) Included in the preceding columns.

(1) Measured in thousand piled cubic fathoms. 1 piled cubic fathom = 1·8 tons (air dry weight).
(2) Including home-grown pulpwood, wood waste, chippings and rejected pitprops.
(3) Before June 1962, figures relate only to straw.
(4) Including woodpulp for cellulose wadding.
(5) For the manufacture of rayon and transparent cellulose film.
(6) 53 week period (except for woodpulp).
(7) 53 week period.
* Average of five weeks.

(1) Before 1967 figures relate to years ending November and to quarters ending February, May, August and November. From 1967 figures relate to calendar quarters, i.e., ending March, June, September and December. (2) Figures up to 1962 relate to Great Britain only. (3) From March 1964 figures are given in hundredweights. (4) Excludes tufted carpets.

(1) The figures for new orders were collected on a new basis in 1964 and adjustments have been made to some of the figures to make the series continuous and bring them into line with output figures.
(2) These figures relate to work included in the preceding columns which is to be done without a firm order.
(3) Including garages and shops.
(4) Including gas, electricity, coal-mining, railways and air transport.

(1) The figures relate to schemes mainly over 5,000 sq. ft. (2) For all projects (new buildings, extensions to existing premises and buildings converted to industrial use) for which industrial development certificates were issued. (3) The area of industrial building has, since mid-August 1966, been extended to include all ancillary space for storage, canteens, etc. The figures in the second line are estimates of the area which would have been approved on the old basis. In Scotland, Wales and North regions the area approved was already for the broader coverage now used in other regions. (4) Provisional. (5) For manufacturing industry only (new buildings and extensions to existing premises).

(1) Excluding building which is wholly financed from private sources. (2) From January 1960 for Scotland and from April 1960 for England and Wales the cost of school meals projects has not been separately recorded. The value of such projects, shown separately for the years 1946 to 1959 in previous tables of educational building, has been included as appropriate under the headings 'Primary and secondary' and 'Special schools'. (3) Figures for England and Wales include the value of projects for which specific approval is not required. (4) Totals for England and Wales include the value of certain projects for which no analysis between type of project is available. As from October 1961, the individual value of such projects is less than £2,000. (5) Figures for England and Wales relate to project values and those for Scotland to contract values. Figures for Scotland include the cost of certain minor projects for which specific approval is not required. (6) This figure takes account of the value of Colleges of Advanced Technology projects transferred to the University Grants Committee on 1 April 1965. (7) The Scottish figures of projects approved refer to approval at the sketch plan stage, which might be some six to twelve months before the start of construction. (8) The Scottish figures of 'Under construction' and 'Completions' are based on the tender costs. The 'Under construction' and 'Completions' figures exclude the value of approved school projects which in 1966 amounted to £1,037,000 and £50,000 respectively.

(1) The method of calculation of the number of new places provided differs in England and Wales and Scotland. In England and Wales the figures refer to the number of pupils for which new school accommodation is designed. In Scotland the figures refer to the sum of the approved capacities of all the teaching rooms whether classrooms or practical rooms, and will normally exceed the number of pupils for which accommodation is designed.

(2) Including new schools brought into partial use before completion.

(3) Extensions, alterations, remodelling and war damage repairs.

(1) Excluding Service vehicles.
(2) Including pedestrian-controlled delivery vans.
(3) Buses, coaches, trolleybuses, taxi-cabs and private hire cars. Tramcars are excluded.
(4) Showmen's tractors and special vehicles, local authorities' watering and cleansing vehicles and tower wagons.
(5) Figures relate mainly to invalid vehicles and snow ploughs, other exempt vehicles being included under the appropriate headings.

(1) Including pedestrian-controlled delivery vans. (2) Including trolleybuses and some private hire cars. (3) Up to and including 1964, showmen's vehicles, tower wagons and local authorities' watering and cleansing vehicles are included. From 1965 onwards, tower wagons used for street lighting and local authorities' vehicles are included with vehicles exempt from duty. (4) Including showmen's tractors. (5) Licences current at any time during the September quarter but vehicles operated under the Crown Vehicles scheme—operated by Government departments—are excluded. From 1961 to 1965 the census is on a sample basis.

(1) The railway figures up to December 1962 are derived from statistics compiled by the British Transport Commission and from January 1963 from statistics compiled by the British Railways Board. The annual figures for road transport are estimated from periodic sample enquiries, traffic count data, trends in the goods vehicle population and changes in industrial output. The monthly road transport figures are estimated from traffic count data.

(2) Not over 30 cwt. unladen weight.

(1) The four-weekly averages for each year are computed from calendar year totals.
(2) The reduced fares category includes statutory day returns in the London area. From 29 January 1966 full fares and reduced fares have been combined for London Transport railways. Similarly, the annual figure for 1965 has been combined, with an appropriate revision for 1964.
(3) Season ticket journeys are calculated on the basis of 600 journeys per annum for London Transport, and before 1962 for British Railways. From 1962 the basis used for British Railways is 540 journeys per annum.

(1) The four-weekly averages for each year are computed from calendar year totals.

(2) Up to and including 1962 the figures are based on miles actually hauled and include free-hauled traffic except that hauled by departmental trains. From the beginning of 1963 they are based on miles charged for and exclude all free-hauled traffic.

(1) Excluding movement by land across the frontier between the Irish Republic and Northern Ireland, passengers travelling between the Channel Islands and Great Britain, passengers carried in aircraft chartered by British government departments and, as far as possible, passengers travelling by sea on pleasure cruises and day trips, and H.M. and other Armed Forces travelling in the course of their duties. Including movement to and from the privately operated airports of Southend and Ferryfield.

(2) Passengers to and from North Africa and Middle East countries have been attributed to the European continent and Mediterranean Sea area from 1960 onwards in the case of air traffic and from 1961 onwards in the case of sea traffic.

(1) Retained imports, natural and synthetic rubber and gutta percha.
(2) Excluding sleepers of all kinds, pitwood prior to 1963, and pitpoles and pitprops from 1963. Coniferous figures also exclude pulpwood, but include softwood, planed or dressed whether or not of coniferous species.
(3) From January 1963 figures are not strictly comparable with earlier series.
(4) Retained imports.

(1) The exchange rates for Australia, New Zealand, South Africa, Bombay and Karachi were:
Australia (£A to £100) (selling rate): 125 to 13 February 1966. From 14 February 1966 a new unit — the dollar — was established on the basis of £A1 = $A2. The new selling rate ($A to £1) = 2·50.
New Zealand (£NZ to £100) (selling rate): 100·375 to 9 July 1967. From 10 July 1967 a new unit – the dollar - was established on the basis of £NZ1 = $NZ2. The new selling rate ($NZ to £100) = 200·75
South Africa (£SA to £100) (selling rate): 1956 to 13 February 1961, 99·875. From 14 February 1961 a new unit—the Rand—was established on the basis of £SA1 = Rand 2.
The new selling rate (Rand to £100) = 199·75.
Bombay (pence per rupee) (averages of daily mean rates): 18·00 to 5 June 1966. The par value of the Indian rupee was revised with effect from 6 June 1966, to give a selling rate of 100 rupees = £4·7660.
Karachi (pence per rupee) (averages of daily mean rates): 18·00 throughout.
(2) 10·598 to 4 March: no quotation 6 March: 10·085 from 7 March.
(3) 11·694 to 3 March: no quotation 4 March: 11·167 from 6 March.
(4) 2·9492 to 2 May: 3·0278 from 3 May.

(1) This is equal to Exchequer borrowing and special transactions (net) *less* receipts from extra-Exchequer funds, etc. It is also equal to the amount the central government borrows *less* any increase (or *plus* any decrease) in its holdings of gold and currency reserves.

(2) These figures relate to net purchases of government marketable securities by the Post Office Savings Bank Investment Account and the Trustee savings banks special investment departments, which are regarded as financial intermediaries.

(1) Including some land tax, mineral rights duty, excess profits duty and special contribution, not included under separate headings; these amounted to approximately £0·2 million in each of the financial years 1963/64 to 1966/67. (2) Receipts from excess profits tax and excess profits levy amounted to approximately £1 million in each of the years 1962/63 to 1965/66. (3) Payments due in certain cases where the overseas rate exceeds the corporation tax rate (Section 84, Finance Act 1965). The figures relate to calendar months. (4) The yearly totals include revisions which cannot be allocated to particular monthly periods.

(5) The sum of the twelve monthly receipts under certain headings is slightly greater than the total shown for the financial year. This is because the monthly figures include duties ultimately payable to the Isle of Man and adjustments for these are made only at the end of the financial year. (6) Including receipts from the 10 per cent. regulator on most Customs and Excise duties and on purchase tax, operative (i) from 26 July 1961 to 9 April 1962 and (ii) currently from 21 July 1966 to 11 April 1967. (7) Including receipts from the temporary charge on imports from October 1964 to November 1966 *less* export rebates.

(1) Although some headings in the new classification are the same as those in the analysis published previously by the British Bankers' Association, the contents of most of these headings are by no means identical. This is mainly due to differences of coverage which result from basing the new analysis on the Standard Industrial Classification.

(2) Excluding funds placed through the specialised financial markets.

(1) Figures are not strictly comparable throughout owing to changes in the composition of the clearings.
(2) Average of Wednesdays. Includes Bank of England notes held by the Scottish and Northern Ireland banks as cover for their note issues in excess of the authorised circulation.
(3) Months: average of Saturdays in the consecutive four-week periods as published in *The London Gazette* or in *The Belfast Gazette*, with as close a correspondence as possible to the calendar months. Years: average of the thirteen published figures.
(4) Excluding coin in the Bank of England, Issue Department.
(5) Total notes and coin outstanding, *less* notes and coin held by the Bank of England, Banking Department, and by the London clearing banks, Scottish banks and Northern Ireland banks.

(1) Derived from yield-maturity curves fitted by computer; an outline of the method used was given in the *Bank of England Quarterly Bulletin* for March 1967. Taxes are ignored. The yearly figures are averages of end month yields. The monthly figures for 1964–66 relate to the last working day and from January 1967 to averages of Wednesdays.

(2) From 1961 to 1962 stocks with coupons below 3½ per cent. were omitted from the calculation of the curves; from January 1963 the limit was 4 per cent. and from January 1966 5 per cent. The effect of the break between 1962 and 1963 on the annual averages is negligible; the break in January 1966 causes a drop of 0·06 per cent. in the short-dated series but does not affect the medium- or long-dated series.

(3) Average of working days, based on the mean of the middle opening and middle closing prices each day, excluding gross accrued interest; tax is ignored.

(4) Averages of daily figures calculated from middle market closing prices.

(5) Gross redemption yields of 15 stocks so combined as to give a yield average for a constant 20-year term.

(1) This index is compiled from the results of a monthly enquiry into total wage and salary earnings. The index has been revised and a full description is given in the *Ministry of Labour Gazette* for March 1967. To avoid confusion with the previous figures the revised index has been rebased taking January 1966 as 100.

(2) The industries included in the enquiry are manufacturing, agriculture, mining, construction, gas, electricity, water, transport and communication and certain miscellaneous services. The coverage of the returns is virtually complete in gas, electricity, coalmining and rail transport. In the remaining sectors, the index is based on returns from a sample of about 7,500 firms having about 5½ million employees. In all, the returns show the earnings of about 60 per cent. of the total number of employees in the industries concerned.

(3) England and Wales only. (4) Except sea transport and postal services. The indices from October 1966 include British Road Services. (5) Consisting of laundries and dry cleaning, motor repairers and garages and the repair of boots and shoes. (6) Provisional.

Source: Ministry of Labour

Note: There are fluctuations from month to month due to such factors as bonus payments, seasonal variations in hours worked, loss of overtime pay during holidays, etc. Seasonally adjusted figures for all industries covered are given in the second column of the table, though these are based on only four years' data and cannot be regarded as precise. It is not yet possible to produce reliable seasonal adjustments for the individual industries.

(1) The figures represent the average earnings, including bonus, overtime, etc., and before deduction of income tax or insurance contributions, in one week in the months indicated. Administrative and clerical workers and other salaried persons have been excluded. Certain qualifications are given in a full account of the enquiry relating to April 1967, published in the *Ministry of Labour Gazette* for August 1967.

(2) This index relates only to the industries covered by the earnings enquiry. It should not be confused with the figures in Table 162 which cover all industries.

(1) The figures are based on rates and hours at the end of the month. An account of the method of compilation of the figures is given in the current issue of the *Ministry of Labour Gazette*.

(2) In general, males under 21 and females under 18 years of age.

(3) The term 'Manufacturing industries' covers all industries included in Orders III–XVI of the revised *Standard Industrial Classification, 1958*.

(1) The figures relate to changes in basic full-time weekly rates of wages and do not reflect reductions in normal weekly hours without loss of pay or variations in actual earnings arising from such factors as overtime or lost time. The changes included are, in the main, those arranged by organisations of employers and workpeople or by statutory wages councils or boards. It is estimated that 14 million workers are covered by these statistics. In general, changes arranged by individual employers are excluded.

(2) The monthly totals in the columns headed 'Increase' and 'Decrease' relate to the number of workpeople affected by changes and the corresponding gross amounts. Workpeople affected by two or more changes are counted only once in the annual totals which relate to the number having increases only or for whom increases exceeded decreases, the number having decreases only or for whom decreases exceeded increases, and the corresponding net amounts; the column headed 'Net increase' is therefore the overall net increase for the year.

(3) The annual totals of net increases in basic weekly rates of wages mean that the total wage bill of the country, in the industries and for the workpeople covered by the statistics, for a full ordinary week's work at basic rates of wages at the end of any one year exceeds that for the corresponding week of the preceding year by the amount stated. The average weekly wages paid during any one year will not, however, exceed those paid during the preceding year by this sum, as the actual changes will have taken place at various dates during the year.

(1) The weighting of the monthly index is based on the pattern of trade in 1961. The method of calculating the import and export unit value index was explained in the *Board of Trade Journal* for 13 September 1963.

(2) Export unit value index as a percentage of the import unit value index.

(1) The index of retail prices replaced the Interim index from January 1956. A new set of weights was introduced, based on ascertained consumption in 1953–54, valued at January 1956 prices. Commencing in January 1962, the weights have been revised each January on the basis of ascertained consumption in the three years ended in the previous June, valued at prices obtaining at the date of revision.

(1) Index of building costs; figures relate to average for the quarter.
(2) Based on prices ruling on the last day of each month.
(3) London Metal Exchange mean of buyers' and sellers' prices at close of morning session.
(4) The index covers only dwellings on which building societies have advanced mortgages during the period. The cost of land is included.

(1) Based on manufacturers' list prices.
(2) The market-price series are based on prices before the addition of subsidies paid to producers under the Cereals Deficiency Payments Scheme and Fatstock Guarantee Scheme.
(3) The gross-price series for wheat, cattle and pigs are based on prices after the addition of subsidies paid to producers; those for milk and eggs on prices paid to producers by the marketing boards for these commodities; and that for potatoes on producer prices, sometimes 'supported' by the Potato Marketing Board.
(4) Figures to June 1966 have been adjusted to final deficiency payments.
(5) Maincrop potatoes only.
(6) Based on guaranteed minimum prices to producers at packing station until March 1966, then on B.E.M.B. prices to producers under the Egg Contract Schemes.
(7) Based on net prices to farmers after deduction of subsidy.

(1) Great Britain. Figures until June 1959 are based on quarterly returns from virtually all cinemas. From July 1959 onwards, figures are estimates based on information relating to a sample of cinemas.
(2) Manufacturers' sales exclusive of purchase tax.
(3) Including medium play and a small number of other types.
*Average of five weeks.

CENTRAL STATISTICAL OFFICE

ABSTRACT OF REGIONAL STATISTICS

1967

This annual publication has been prepared by the Central Statistical Office to meet a growing demand for information on regional detail and is supplementary to the national figures published regularly in the Annual Abstract of Statistics.

Issue No. 3 of this Abstract provides a wide coverage of economic and social statistics by standard regions. Many of the tables give details for conurbations and there is a useful Appendix defining the regions together with a map and an Appendix listing the sources of the statistical data.

The subjects covered include:

POPULATION	SHIPPING
LABOUR	DISTRIBUTION
CONSTRUCTION	INCOMES AND EARNINGS
FUEL AND POWER	FAMILY EXPENDITURE SURVEYS
IRON AND STEEL	NATIONAL HEALTH SERVICE
ROAD TRANSPORT	EDUCATION

This Regional Abstract will be of great value to everyone concerned with regional problems and development.
